SB4 STRAW BLOWER

WHY BUY?

Leaf & debris vacuum option – extends usage season by 50%.

Drainage ports in the beater chamber and blower fan housing – reduces water build up and rust.

Powder coat paint – twice as durable as liquid paint when pressure washed.

Heavier gauge steel than competitive models – greater durability.

Slot & groove joinery plus full welds – greater precision & durability.

Fuel tank capacity 80% greater than competition – greater operator productivity.

10% more efficient than competition – increased blower fan size, laser cut and dynamically balanced.

Most compact footprint in the industry – engine protected on the skid.

Manufactured in a high-precision military supplier facility.
