Sandvik Compact Series Breakers

Sandvik Compact Range hammers are built to meet the growing demands of the rental market and to offer contractors the most up-to-date hammer technology. The most notable feature of the new in hammers is their massive trapezoidal tool that offers considerable benefits over traditional small tools. This non-breakable tool offers extremely long service life combined with superior productivity.

In addition to the low-maintenance, long-life characteristics, the **Compact Range** hammers are designed to match mini excavators, skid steer loaders and a wide range of other compact carriers.

The Sandvik Compact Range hammers feature:

- **Trapezoidal tool**
Non-breakable - saving money and downtime
- **Composite tool bushing**
Never has to be greased - increased tool and bushing life
- **Innovative mounting bracket**
Two brackets in one - direct pin on and easily adaptable for quick couplers
- **Constant blow energy**
Guarantees all blows are at full power
