

Stumper is simple to use, incredibly productive, and the strength of the carbide teeth is amazing.

Customers have told me that it will out-do designated grinders that cost four times as much.

SILAS F., DITCH WITCH OF THE ROCKIES

STUMPER 280

The contractor grade Stumper 280 is the perfect fit for heavy duty landscaping with its powerful grinding technology and innovative design. Maximize your equipment investment by adding the speed and strength of the Stumper 280.
