FS 130

With a high power-to-weight ratio, the FS 130 bike-handle trimmer packs a hard punch when mowing through heavy grass and weeds. In addition to delivering 33% more engine power than the FS 110, the engine is also fuel efficient, meaning fewer refuels throughout your workday. The low exhaust emission engine makes it easier on the environment – unless that environment happens to be directly in your cutting path. And when the job proves too much for standard nylon line, the trimmer accepts a wide range of steel cutting blades.

FS 130 Specifications

DISPLACEMENT	36.3 cc (2.2 cu. in.)
ENGINE POWER	1.4 kW (1.9 bhp)
WEIGHT*	5.9 kg (13.0 lbs.)
FUEL CAPACITY	530 cc (18 oz.)

Reduced-Emission Engine Technology - Caring for Nature

The STIHL Inc. "Caring for Nature" seal identifies its powered products that are more environmentally conscious, producing zero or low exhaust emissions. STIHL Inc. defines "low exhaust emissions" as being cleaner than EPA and/or CARB exhaust emission standards.

Bike Handle

When used in conjunction with a harness, the bike handle allows the machine to be easily guided, enabling a smooth horizontal mowing action to cover large areas quickly and efficiently. With soft grips for increased comfort, the bike handle provides greater control and helps reduce operator fatigue.

Electronic Ignition Module

The electronic ignition provides reliable starting and because it is fully enclosed, it is protected from moisture and debris for longer service life.

Multi-Function Control Handle

Having easy access to all of the controls on one comfortable handle makes it easy to complete tasks so the operator's hand never has to leave the handle.

icants-and-fuels

Tool-Free Handle Adjustment

The central wing nut enables easy adjustment without the use of tools. For transportation and space-saving storage, the handle can be rotated 90°.

Purge Pump Primer

By pressing the bulb, this small fuel pump delivers fuel to the carburetor, reducing the number of starting pulls needed after an extended break between uses.

Anti-Vibration System

STIHL has a system for minimizing the vibration levels of handheld outdoor power equipment. The STIHL anti-vibration system helps reduce operator fatigue and provides a more comfortable working experience.
