## S26 HEPA Dust Extractor

Creating Clean Air for Construction, Abatement, and Restoration

Unlike low cost homeowner vacuums, Ermator HEPA Dust Extractors are equipped with tested and certified HEPA filters that trap the most dangerous-to-breath dust particles and prevents them from being released in the air. A HEPA Dust Extractor not only exhausts perfectly clean air, it is far more efficient for the fast recovery of bulk dry dust, debris and other building materials found on every Construction, Abatement and Restoration jobsite. They can also be connected to electrical power tools to extract the freshly cut and friable concrete dust, considered to be the most hazardous to construction workers. It's time for you to stop using an ordinary vacuum and step-up to the innovation, performance and the power of a Ermator HEPA Dust Extractor.

The S26 is a powerful dust separator suitable for applications involving fine dust. It can handle building, grinding, plaster and concrete dust. It is equipped with a fine filter (flushable) and an H13 filter which meets the asbestos requirements. An hour counter and vacuum meter for filter control are standard.

Like all Ermator Dust Extractors, model S26 is equipped with Jet Pulse filter cleaning, "drop-down" dust collection in Longopac® 20 m plastic bags, and tested and certified HEPA filters. The wheels are of the "non-marking type", puncture free and lockable at the front. It is supplied complete with cleaning equipment and transport protection.

- Jet Pulse:** efficient cleaning without opening vacuum
- Steel Clamps:** corrosion resistant, secures vac during transport and storage
- 2" Hose Inlet:** offset for maximum cyclonic separation of dust, maximizes airflow (CFM)
- Safety Cap:** prevents material from escaping through inlet during transportation and storage
- Longopac®:** 72 ft long plastic tube can be separated into approximately 25 individual sealed bags for fast, safe handling and disposal of dust.
- Welded frame/platform with 3" swivel casters:** sturdy support & mobility even with full bags

- Steel Handle:** easy mobility on congested jobsites
- On-Board Wand Storage:** easy access to tools
- Dual tested and certified cylindrical shaped HEPA filters:** guaranteed 99.99% efficient at .3 microns. Dust is trapped in the inside of the filter, minimizing risk to operator during filter changing. With filter compartment cap for fast, easy filter changes.
- Bottom Mounted Dual Vacuum Motors:** two-motor power for fast pick-up.
- 10" Rear Tires:** smooth, easy transport over power cords and other floor obstructions

**Conical Pre-Filter:** stays clog free; cleans more thoroughly via jet pulse.

**Manometer:** measures the negative pressure within the tank and alerts the operator when the filters need servicing.

### S26 Specifications

Volts:	120	230
CFM:	258	258
HP:	3.4	3.4
Amps:	18/9	18/9
Water Lift:	100	100
Weight:	137	137
Product Code:	200900059A	200900059B
