U-Sand® Floor Sander

The Cutting Edge of Floor Sanding Technology

Our U-Sand Floor Sander sets the standard as the cutting edge of floor sanding technology.

Using four-pad, random orbit technology, the U-Sand sander makes floor sanding easy and worry-free by eliminating the possibility of damaging the floor. Acting as a sander, edger and buffer, this machine can complete a flooring job from start to finish.

The Perfect Floor Sander Rental

- Three pieces of hardwood floor sanding equipment in one:
 - Floor Sander
 - Floor Edger
 - Floor Buffer
- Great in small spaces:
 - Closets, bathrooms, hallways, kitchens, foyers

U-Sand Floor Sander Specs

- 110V
- 1.5 HP Motor
- 125 lbs

Benefits of the U-Sand Sander

U-Sand changes everything about floor sanding.

Rip and strip finishes on existing floors with ease. Cuts through urethane efficiently and leaves the wood clean and ready for a new finish. Sands in any direction without damaging the grain pattern, and is the best machine for antique floors as it removes far less material than drums so your floors last longer. Far easier to use than traditional drum sanders: change hook and loop grit disks in seconds, vacuums dust out of the way as you go, edge and buff with the same machine, floats easily as you make your passes.

Try a U-Sand floor sander and you'll know why we're on the cutting edge of floor sanding technology.
