YOU BE THE JUDGE. Power trowels are measured by their performance, and by that standard, **MQ Whiteman** is the undisputed leader. Year after year, our power trowels continue to be the number one choice of the concrete industry. With over 70 years of engineering experience, no other manufacturer can match our quality, reliability or performance.

B-Series

46" (1170mm) Width

The Classic.

High horsepower engines and excellent rotor coverage have made this trowel the favorite of concrete contractors for generations.
