Features

- 1** Stamped, thru-hardened high carbon tool steel blades maintain a sharp edge for longer periods of time. This means less downtime for maintenance. Little Wonder blades last 6 to 10 times longer than other steel blades..
- 2** Most hedge trimmers feature only one set of blades that move. Little Wonder Electric Hedge Trimmers feature double reciprocating blades for reduced vibration and heavier cuts.
- 3** Cuts up to 1/2" Diameter Growth, our hand sharpened blades let you shear new growth, as well as established heavy growth
- 4** Gears Designed for 20% More Cutting Speed. Case hardened steel gears for durability and longer life. Angled gear teeth transmit greater torque for more power from the motor to the blades.
- 5** Motor stops in less than 1/2 second if either switch is released, Reduces the chance of coming into contact with moving blades. Meets or exceeds International Safety Standards.
- 6** Blades will only engage if both switches are simultaneously depressed. Increases user safety. The first of its kind in North America.
- 7** Double-Insulated Motor is Ball Bearing Mounted. Top and bottom ball bearing mounts ensure smoother, cooler running and longer life. Also produces less friction for increased blade power.
- 8** Cord Management System molded into the rear handle, this hook keeps the extension cord from coming unplugged during operation.
- 9** Brush cap and gear case covers remove easily for maintenance. No need to separate the housing.
- 10** Ergonomic Handle Configuration shaped to you hands natural form, less fatiguing design, adjustable front handle, precision balanced, and light. Easier to use for longer periods of time.
- 11** 10dB reduction in sound pressure (volume the operator hears), 8dB reduction in the total noise level (amount put into environment).
- 12** Double Edge Blade offers great cutting performance in either direction.
- 13** Extra strong frame bar for years of use.
