

CORE EZ™

Advanced Core Drilling System

U.S. Saws' Core EZ is a new way of coring. Here's what sets this unit apart:

- Easy to use because it's lightweight. The entire unit fits into a wheeled case that weighs under 50 pounds.
- Easy to use because it holds the core.
- Easy because there's no measuring offsets and it will not damage surfaces.
- Easy because it fits virtually anywhere.
