

S13 HEPA Dust Extractor

Creating Clean Air for Construction, Abatement and Restoration

A HEPA Dust Extractor not only exhausts perfectly clean air, it is far more efficient for the fast recovery of bulk dry dust, debris and other building materials found on every Construction, Abatement and Restoration jobsite. They can also be connected to electrical power tools to extract the freshly cut and friable concrete dust, considered to be the most hazardous to construction workers. It's time for you to stop using an ordinary vacuum and step-up to the innovation, performance and the power of a Eramator HEPA Dust Extractor.

The model S13 single motor HEPA Dust Extractor can be connected to electrical, hand-operated power tools to extract freshly cut, friable concrete dust. The model S13 is also an effective all-around construction vacuum for picking-up a wide range of building materials and debris. Comes with 16-foot, 1.5" hose, wand and floor tool. Includes a 6 mil, 4-gallon disposable poly bag for dust-free handling and disposal, or the Longopac system can be installed for quick, dust-free disposal. Large non-marking, puncture-free rear wheels and locking front casters make the S13 very mobile.

Conical Pre-Filter: stays clog free; cleans more thoroughly via jet pulse.

Manometer: measures the negative pressure within the tank and alerts the operator when the filters need servicing.
